

## Review Search Terms

(Last Updated: January 18, 2011)

These tables provide the search terms, codes, and explanations for all CRMS search pages. The term cited in each table below is the actual search term used in the search input fields to generate the appropriate search.

Attributes	
term	explanation
ic	in copyright
pd	public domain
pdus	public domain only when viewed in the US (Experts only)
und	undetermined copyright status

Status	
term	explanation
0	not reviewed yet or awaiting processing
1	reviewed by one person only or legacy review
2	reviewed by two reviewers that disagree
3	reviewed by two reviewers (non-advanced) that agree
4	reviewed by two reviewers that agree*
5	reviewed by an expert
6	reviewed by an expert agreeing with matching <b>UND</b> reviews (no longer used as of CRMS 1.7)
7	reviewed by an expert agreeing with status 3 reviews

\*or a system generated final determination (see reason code "crms")

Reasons	
term	explanation
add	foreign pub determination based on author death date(s) (Admin. & Super Admin. only)
cdpp	title page or verso contains a different date and/or place of publication
crms	system generated "final" determination based on internal resolution policy (user = "autocrms")
ncn	no printed copyright notice
nfi	needs further investigation
ren	copyright renewal research was conducted

Verdict		
term	meaning	explanation
0	<b>Not Validated</b>	expert reviewer disagreed
1	<b>Validated</b>	expert agreed, or no expert review (e.g., match, or standalone legacy review)
2	<b>Neutral</b>	expert did not agree, but the volume was problematic or particularly difficult, so review was not invalidated

Note Categories	
term*	
Date	
Dissertation/Thesis	
Edition	
Expert Note	
Foreign Pub	
Insert(s)	
Language	
Misc	
Missing	
Not Class A	
Periodical	
Reprint	
Translation	
Wrong Record	
* use wildcard asterisk to reduce any term size. Example: Di* for Dissertation/Thesis	

Legacy	
term	explanation
0	review was done using CRMS
