**Note: Valid reviews/rates include all reviews with ✔ or ▬

- **Total Reviews.** This number is the total of all the reviewer's Public Domain, In-Copyright, and Undetermined <u>finalized</u> reviews in Historical reviews. This number includes invalidated reviews but does not include:
    - Reviews still active and/or not yet moved to historical reviews (see **Reviews Awaiting Verdict** below)
    - Legacy reviews (pre-CRMS reviews)
- **Valid Reviews & Rate.** This is the reviewer's total number of reviews that were not invalidated by an Expert (including reviews receiving a neutral/Swiss verdict), along with the percentage of validated reviews out of that reviewer's total reviews.
- **Validation Rate (all reviewers).** This percentage represents the sum total of validated reviews for all (non-expert) reviewers, divided by the total number of (non-expert) reviews. The row is included in each reviewer's individual "My Review Stats" table as a point of reference to compare their validation rate against all CRMS reviewers.
- **Time Reviewing (mins).** This is the number of minutes spent reviewing by the individual reviewer as calculated from the time a new review is opened and until it is submitted. This does not include time spent beyond 5 mi**nutes on** a single review (see **Outliers**).
- **Time per Review (mins).** This number is derived from a calculation that takes the **Total Reviewing minutes** and divides it by the **Total Reviews,** less **Outliers**.
- **Reviews per Hour.** This number is derived from a calculation that takes the **Time per Review** and multiplies it by 60.
- **Outlier Reviews.** This number represents the total number of reviews in which the reviewer took more than 5 minutes to complete and submit.
- **Reviews Awaiting Verdict.** The number (located below the table) represents the reviewer's current active reviews for volumes that have not yet received a final determination. Once the volumes associated with these reviews get final determinations, these reviews will be added into the reviewer's **Total Reviews**.
